DIVIDENDS

IL&FS Investment Managers Limited has declared a dividend of 60%

Dr Archana Hingorani, Chief Executive Officer, IL&FS Investment Managers, said,

The global economy grew at 3.1% in CY2015 at a slowing and increasingly fragile pace. Continued weak performance of Europe, Brexit, near recessionary conditions in Japan, slowdown in China etc. are all indicative of longer road to global recovery. Against this background, India has been making progress in terms of economic growth, inflation control, deficit management, reversal of the interest rate cycle etc. FY2017 is expected to continue the momentum at a steadier pace - given the likely boost in consumption demand, forecast of a better monsoon, encouragement of investment in the infrastructure sector etc. While India continues to be the only sizeable emerging market to have exhibited growth, banking and corporate stress, slower conversion to an investment cycle by corporates etc., have all impeded free flow of capital into private investment

Against this backdrop, IIML proceeded on a multi-pronged strategy for FY2016, which included raising a core product in the infrastructure space, a yield product in the real estate space, diversifying into investment banking led private equity opportunities and seeking to expand the offerings through acquisition of the infrastructure debt management business. There has been marked progress in marketing the core products, although the response is slower than expected. During the first half, the Company expects to achieve final close of the growth private equity fund as well as completing acquisition of the infrastructure debt business; which is awaiting SEBI approval. During the year, the Company is also looking to achieve a first closing for its infrastructure and real estate verticals. The recent opening of infrastructure investment through InvITs is one more new growth area being targeted for FY2017

During the year ending March 2016, IIML recorded exits of ₹ 21.89 bn. IIML's continues to focus on divesting existing funds and fund raising across all verticals
