DIVIDENDS

IL&FS Investment Managers Limited has declared a yearly dividend of ₹ 1.30 per share with a payout ratio of 65%. This works out to a dividend yield of around 9.6% on a monthly average price of ₹ 13.50 per share

Dr Archana Hingorani, Chief Executive Officer, IL&FS Investment Managers, said, "In India, growth has been the lowest in a decade, reflecting global developments and domestic supply constraints. The tightening of global liquidity increased external pressures and heightened the focus on India's macroeconomic imbalances and structural weaknesses. This has also translated into a challenging operating environment for the Company as well. The Company continues to exhibit a steady performance inspite of the challenges. However, since most parameters are showing signs of having either stabilized or bottomed out coupled with the potential of a decisive mandate, there is a sense of greater optimism going forward. This potential improvement in the operating environment is expected to provide a platform for a robust performance from the Company in the coming fiscal"

OPERATIONAL PERFORMANCE

During the financial year FY2014, IIML recorded exits of ₹ 974. 6 Crores from its portfolio. One of the focus areas during the year was to work closely with investee companies to generate optimum valuation and exit options. Despite FY2014 presenting a challenging environment for exits, the Company was able to achieve significant headway in generating cash flows. A greater emphasis in FY2014 was to continue to engage with the investor community for participation in investments on the IIML platform
